

Professional Nutrition Cereal And Grain Bar Making Machine With Custom-Design Service

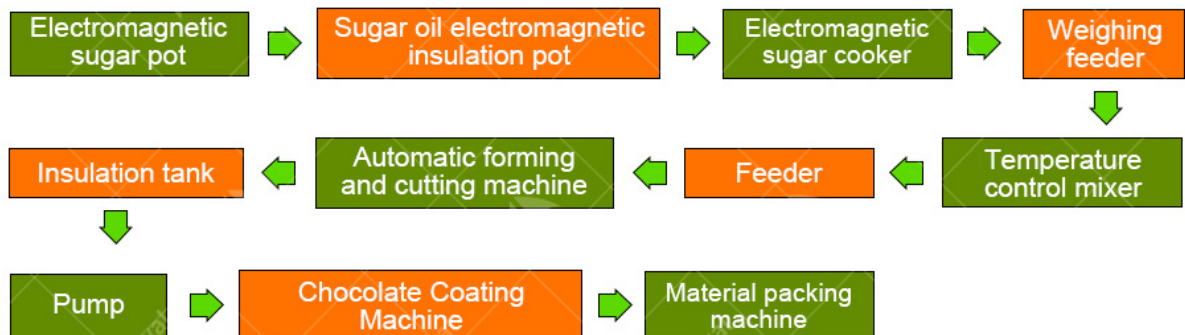

Introduction of Nutrition Cereal And Grain Bar Making Machine:

This nutrition bar can also be called a meal replacement bar. If you use this meal replacement bar, it contains a lot of nutritional elements. First of all, it contains high dietary fiber and black tech protein, which can scientifically control the calorie difference. If he replaces dinner, it can bring about four hours of nutrition and satiety, so you can consume it without worry. In addition, he can help you reshape your ideal waist shape. And taking the meal replacement bar can save 477 calories, which is equivalent to jogging for 73 minutes. The production line is continuously fed, consisting of automatic flattening, automatic horizontal cutting and automatic vertical cutting; seven automatic leveling channels, with moderate leveling density and even thickness, frequency conversion adjustment, with good cutting size and squareness of forming; continuous production of the whole machine and manual connection in the middle, realizing the truly automatic and intelligent operation of the nutrition bar production line.

The whole Nutrition Cereal And Grain Bar production line can automatically complete the production from puffing, drying, sugar cooking, mixing, forming and cutting, packing to the finished product.

PROTEIN BAR MANUFACTURING PROCESS

Details of the production line

Electricity supply	Customised according to your local electricity situation.
Machine details	1.Stainless steel:201, 304, 316, on request. 2.Electrical components can be ABB, Delta, Fuji, Siemens, famous brands.
Certificates	CE,GOST,TUV,BV,SGS
Raw material	Corn,rice,etc
Applications	Making cereal bar,puffed corn cake,black and brown rice cake and other puffs food.

Flow chart of a nutrition cereal and grain bar processing line:

Our engineers can design the layout diagram of the nutrition cereal and grain bar processing line according to the customer's factory size.

Features of the nutrition cereal and grain bar processing line

- 1.Productivity:automated system for controlled and stable production on a continuous basis, easy and quick product change, automatic start-up, simple cleaning and maintenance procedures.
- 2.Economical: low investment, quick results.
- 3.Environmental protection: moderate output and energy saving.
- 4.Intelligent control system: PLC control of production to ensure optimum process parameters for each recipe.

5. Automatic lubrication system can reduce power consumption and prolong service life.

Customers Who Understand The Protein Bar Processing Technology

1 China 300t/Year Protein Bar Machine Price

2 1t/h Tough Protein Bar Making Machine Price For Sale In Puerto Rico

3 1t/h Protein Bar Making Machine Price For Sale In Bolivia

4 Senegal 1t/h Automatic Protein Bar Extruder
