

Industry Multi-Function Automatic Biscuit Production Line Biscuit Making Machine

The etymology of biscuits is "bread that has been baked twice", which is derived from the French bis (one more time) and cuit (baked). It is baked with flour and water or milk without yeast. It can be used as a storage food for traveling, sailing, and mountaineering. It is also very convenient and suitable for use as a spare food for soldiers during wars.

The initial stage of the biscuit industry was the aforementioned long-term maritime or war emergency food concept. It was initially spread with HandMade-Type. After the industrial revolution, due to the development of mechanical technology, the biscuit production equipment and technology developed rapidly. People slowly developed a fully automatic biscuit production line to meet human demand for biscuit.

As one professional biscuit making machine manufacturer, our fully Automatic Biscuit Making Machine can make many different type of biscuits. Such as cream biscuit, sandwiching biscuit, soda cracker biscuit, vegetable biscuit etc. And also we can offer small, medium and large biscuit production lines. Aiming at biscuit manufacturers of different sizes to meet the different output needs of customers.

SAMPLES MADE BY OUR BISCUIT MAKING MACHINE

At the same time, our biscuit production line structure is precise, the fire is uniform, and the fire is not partial. There are diversify heating source for your operation (electric, gas, fuel oil). At the same time, we use Siemens Motor, the material of the machine is 304 Stainless Steel. The machine has CE, ISO9001, SGS and other certifications.

Industry multi-function automatic biscuit production line can make hard biscuit and soft biscuit. It's fully automatic production line, saving labor, high efficiency and energy saving. It also no noise and no pollution.

The biscuit making machine has reasonable price, reliable quality and professional service! Our company provides customers full set service: cost accounting, machine design, cookie recipes, machine installation and debugging, design cookie molds according to customer requirements. And also we have a professional after-sales team, the machine quality is guaranteed. As one of the most professional biscuit machines manufacturer of biscuit making machinery, During past 15 years, we sold our machinery to more than 150 countries and zone. At same quality machine, our machine price was best one.

BISCUIT MAKING MACHINES INCLUDING:

Flour mixer-Roll cut biscuit form machine-Tunnel oven 10 meters□Electrical type□-Oil Sprayer-Net belt cooling conveyor-Electrical control Box-Biscuit Molds

OPTIONAL EQUIPMENTS

Pillow Packing machine-Automatic 2+1 Biscuit sandwiching machine

BISCUIT LINE OUTPUT AND PARAMETERS:

Host Model FAB225 FAB280 FAB400 FAB600 FAB800

Power and voltage customize customize customize customize customize

Installed Capacity 28.5KW 55KW 110KW 220kw

(gas type 25kw) customize

Heating Source Electrical Electrical Electrical, Gas Electrical,Gas Electrical, Gas

Baking temperature 200-300□ 200-300□ 200-300□ 200-300□ 200-300□

Production capacity 50~60Kg/h 100kg/h 150-200Kg/h 400-500kg/h 600-900kg/h

Production line length 21000mm 30000mm 43000mm customize

ADVANTAGE OF BISCUIT MAKING MACHINE:

1. The Biscuit Machine Occupies a Small Area And Consumes Less, Small Workshop Can Also Start Production Easily.
2. There Are Many Types Of Molds And Product Designs. One machine can produce chocolate biscuits, cream biscuits, sandwich biscuits, animal biscuits, vegetable biscuits, layer biscuit, calcium biscuit, multi-vitamin biscuit, crispy cake, walnut cake biscuits, butter cookies, ultra-thin biscuits, vegetable cookies etc.
3. Biscuit Making Machine Can Produce 24 Hours Continuously Every Day.
4. Fully Automatic Small Biscuit Machine Requires Fewer Workers, 2-3 Workers Can Complete The Whole Process From Raw Material Mixing To Packaging,
5. The Operation Is Simple, And The Workers Can Easily Operate The Machine After Training.
6. No Industrial Pollution And No Waste.

AFTER-SALES SERVICE & INSTALLATION:

Item No. Service Of Fully Automatic [Biscuit Making Machines](#)

1 24 months warranty.

2 Provide detailed product recipes for biscuits production.

3 Before the machine leaves the factory, our senior engineers will complete the debugging according to customer requirements.

4 Provide video installation, installation instructions, operation instructions and machine maintenance instructions during the epidemic.

5 Engineers and business personnel provide 24-hour online technical guidance and video conference. Ensure that the customer's production line can be put into production normally.

6 After the epidemic, senior engineers (more than 10 years of experience in the industry) can be sent to customer factories for field installation training.
