

Vegetable Cookies Sandwich Biscuit Machine 220V380V With Siemens Motor

A sandwich cookie, also known as a sandwich biscuit, is a type of cookie made from two thin cookies with a filling between them. Many types of fillings are used, such as cream, ganache, buttercream, chocolate, cream cheese, jam, peanut butter, lemon curd, or ice cream etc.

All working procedures are from flour mixing, molding, waste recycling, baking to cooling and can be full automatic in sandwich biscuit machine. Hundreds of moulds and dozens of technology recipes make it to produce all kinds of popular biscuits, such as cream biscuits, sandwich biscuits, soda cracker, vegetable biscuits, from loyal manufacturer. At the same time, our heating methods are electrical and gas heating, customers can choose different methods according to their

needs. We are professional manufacturer for automatic biscuit sandwiching machine with Siemens motor. Our sandwiching machine adopted 304 stainless steel. Fully automatic, easy to clean. High production efficiency and beautiful appearance. It can be connected with the packaging machine, to make filling and packaging one time automatic, and whole line only need one worker operation, saving labor, high efficiency.

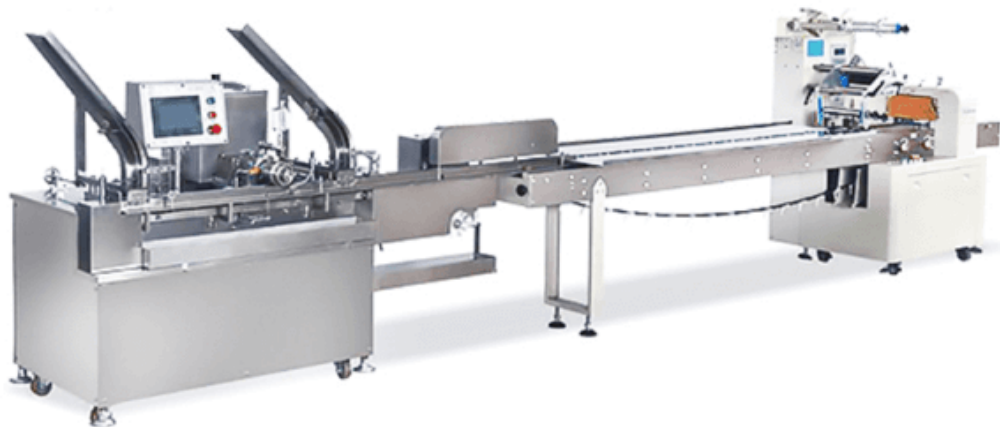

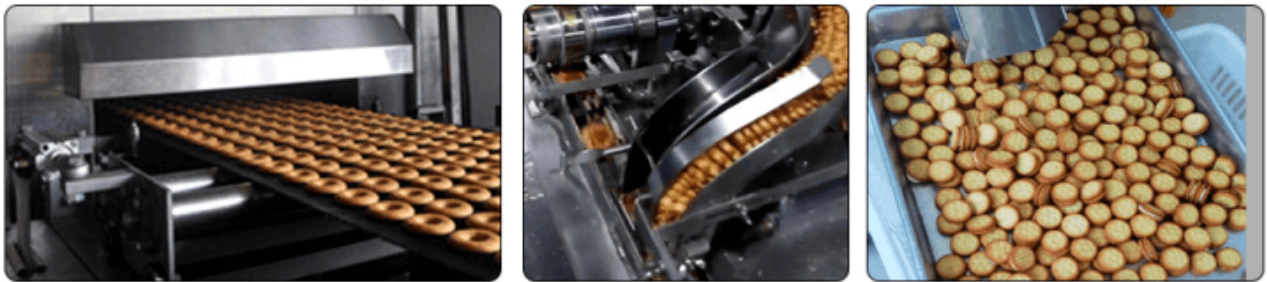

SAMPLES MADE BY BISCUIT SANDWICHING MACHINE

HOW TO MAKE CORE PART OF INSIDE THE SANDWICHING BISCUIT ?

Item No.	Step

BISCUIT SANDWICHING MACHINE DESIGN:

Item No.	Advantage Of Biscuit Sandwiching Machine
1	Simple Operation, Good Stability, High Continuous Productivity And Other Characteristics, It Is An Essential Machine For The Production Of Sandwich Biscuits.
2	Stainless Steel 304 Material
3	Motor And Electrical Brands Can Be Customized According To Customer Requirements;
4	There Are Two Types Of Biscuit Sandwiches: 2+1 Type And 3+2 Type For Customers To Choose;
5	Have international certification: CE, ISO9001, SGS etc.
6	Fully Automatic, saving labor, high efficiency
7	No noise, no pollution, energy saving.

LIST OF SANDWICHING BISCUIT RAW MATERIAL

Raw Material For Biscuit :	Wheat Flour, Butter, Sugar, Powder, Milk Powder, Loosening Agent, Egg
Filled Core Material:	Cream, Jam, Butter, Chocolate Etc.

Finished
Biscuit
Type:

Soft Biscuit, Hard Biscuit, Vegetable Cookies,
Butter Cookies, Sandwich Cookies, Soda Cookies,
Animal Cookies, Crispy Biscuits, Tough
Biscuits, Multi-vitamin biscuit, Etc.
