

# Customizable cereal , protein or granola bar production line

## Introduction

With PTL, instead of you having to adapt to standard machinery, our solutions adapt to you. This saves you money, without compromising on efficiency or flexibility. You'll also get continuous support from our responsive team.

The Automatic Cereal Bar Production Line is a large production line that serves for bulk production of cereal bars. Our company serves medium to large confectionery industries with this production line. Based on advanced design and technology, this production line is suitable for producing different bars, for instance.

## The Production Line Details

|                    |  |
|--------------------|--|
| Capacity           | 2.5T/Shift   |
| Electricity supply | Customized according to your local electricity situation.  |
| Machine details    | 1. Stainless steel, :201, 304, 316, on request.<br>2. Electrical components can be ABB, Delta, Fuji, Siemens; famous brands. |
| Certificates       | CE, GOST, TUV, BV  |
| Raw material       | Rice, Millet, Sugar, Eggs, Flour   |

|                |               |
|----------------|---------------|
| Product colour | Various color |

### **Feature Of Nutrition Cereal Grain Bar:**

High degree of automation: The Nutrition Cereal Grain Bar production line has a very high degree of automation, which can well meet the needs of customers and fully meet the needs of various enterprises.

1. Large output: It can realize multiple batch processing, thus avoiding problems such as equipment downtime and long downtime due to different batches. The output of the equipment is large, thus ensuring the production efficiency and quality. At the same time, the production speed of the equipment is fast, and the output can be adjusted at any time according to the output needs of different users.
2. Low energy consumption: It can effectively reduce the utilization rate of energy and achieve the purpose of saving costs.
3. Sanitation and cleaning: The equipment adopts a new type of dust removal equipment, which can well avoid dust pollution to the surrounding environment and ensure environmental hygiene. In the process of processing, a certain amount of dust will be generated. If the dust is not effectively removed, the dust will cause harm to the

health of the workers.

4. Easy to operate: The device is easy to operate and easy to use, whether it is a small-scale enterprise or a large-scale enterprise, it can be easily used.

The above are the characteristics of the Nutrition Cereal Grain Bar production line. This equipment has the advantages of large output, high efficiency and low energy consumption, and can meet the needs of various customers.

### **Applications Of Nutrition Cereal Grain Bar:**

The nutritional bar production line is very versatile. In addition to being used in the production of nutritional bars, it can also be used in the production of various foods such as rice crackers, corn crisps, black rice crisps, and brown rice crisps.
