

Low Electricity Fish Meal Fish Feed Production Line Cat Fish Feed Pellet Machine

Industrial Fish [Feed Production Line](#) is made of food grade stainless steel and whole line is fully continuous and automatic. Fish Feed Making Machine has the characteristics of high automation, easy operation, stable performance, cheap price, easy maintenance and wide material selection. Compared with traditional hand-made methods, it reduces a lot of production costs, improves production efficiency. The final feed is nutritious, varied, attractive, digestible, and can be enjoyed by your pets and fish.

TECHNICAL PARAMETERS OF FISH FEED PRODUCTION LINE

Model	Installed Power	Power Consumption	Output	Size (L*W*H)
LYF-65-1	80kw	56kw	120- -150kg/h	22500x1200x2200mm
LYF-70-1	128kw	90kw	200-250kg/h	25000x1500x2200mm
LYF-85-1	175kw	123kw	300-600kg/h	30000x3500x4300mm
LYF-90-1	287kw	216kw	1000-1200kg/h	40000x2400x4000mm
LYF-75-2	186kw	139.5kw	300-600kg/h	24000*2000*2800
LYF-95-2	383kw	287kw	1000-1500kg/h	40000*3000*4000mm
LYF-115-3	424kw	318kw	2T-3Tg/h	42000x3000x4000mm
LYF-130-3	502kw	376kw	4T-5Tkg/h	46000*3000*4000mm
Applied Products□Cat food, Dog food, Bird food, fish feed, Shrimp feed, Floating fish feed, Tilapia pellet, Sinking feeds, Turtle feed, Crab Feed and so on				

FLOW CHART OF FISH FEED PRODUCTION LINE

Mixer -Screw conveyor -Twin-screw extruder -Elevator-Dryer-
Hoister -Flavoring line -Cooling conveyor

QUICK DETAILS OF FISH FEED PRODUCTION LINE

LDVVV

Condition	New
Place of Origin	Shandong, China

Brand Name	Loyal Industrial
Application	Floating Fish Feed Production Line
Voltage	220V/380V
Powe	55kw
Warranty:	1 Year
Raw material	Rice flour, corn flour, wheat flour, soya flakes meal, rice bran, wheat bran, fish powder, bone powder, fish meal, etc.
Feature	High efficiency, high output, high speed, low electricity, cheap price
machine Material	Stainless steel food grade
Certifications	CE, ISO, ROHS, BV

ADVANTAGES OF FISH FEED PRODUCTION LINE

1

Ingredient flexibility for different raw materials

2	Stir well so that an excellent protein substrate can be obtained.Pre-treating the feed can reduce the nutrient loss and improve the protein ratio do fishes can easily digest the feed.
3	Control of process parameters to get floating or sinking fishes pellet
4	Feed pellet dimensions calibrated from 0.5 to 30.0 mm
5	Output range, from 100 to 6,000 kg/h
6	It adopts corn flour, wheat flour,low temperature soya flakes meal, rice bran, wheat bran as raw materials.
7	High output, low consumption is realized by the steam and electric design. High temperature and high pressure can kill the salmonellosis and bacterial infections.
8	We can adjust the cutter of floating fish feed pellet mill to get different diameter and the length.

WHATS THE FEATURES OF FLOATING FISH FEED EXTRUDER MACHINE

1. Twin screw floating fish feed production line can produce different fish feed for links of fish, like the tilapia, tourt, aquarium fishes, gold fish, shrimp, prawn, etc.
2. The floating fish feed can improve feed efficiency, and the farmer can see the situation of fish eating, which can avoid overfed and reduce feed waste.
3. The fish pellet made by the machine can float on water more than 24 hours. So it can enhance the output.
4. The diameter of particle is 0.6-16mm. Promising fodder output evenly and continuously.
