

200KG Per Hour High Productivity Wheat Flour Snack Making Machine Sticks Snack Fried Wheat Dough Snack Machine

This is a High Productivity Saving Energy and Automatic food processing machine line, with frying machine, seasoning machine, drying machine etc...The fried wheat dough snack machine is suitable for pressing flour and other raw materials through multiple pressing rollers. It is cut into different shapes by a special mechanism , After frying and flavoring by fryer machine, drum flavoring machine, we can get crispy and delicious snacks food.such as Malaysia Shrimp Pasta ,fried sticks,square pellet,chips. Etc.We can offer full design processing machine and recipe for processing fried dough snack .The fried dough snack has reasonable design and simple

SPECIFICATION OF fried wheat dough snack machine

Brand Name	LOYAL
Model Number	Fried Dough Snack Machine
Output	100-150kg/h, 200-260kg/h, 200-250kg/h, 250-300kg/h
Voltage	380V/50HZ, 220V/50HZ
Place of Origin	Shandong China
Certification	CE,ISO9001,SGS□BV
Min.Order Quantity	1 sets/Fried Dough Snack Machine
Material	Food grade stainless steel
Heating Methods	Electric, Deisel, Gas
Price	Contact Us
Packaging Details	Wooden case or wooden pellets depended on clients' require
Delivery Time	20days--35days
Payment Terms	T/T,L/C,D/P

Supply Ability	20 days / Fried Dough Snack Machine

Details of Fried Dough Stick Snack Production Line

FRIED DOUGH SNACK MACHINE APPLICATION

The shape of the fried wheat dough snack machine with sticks Shape ,square sheet rib chips , diamond chips Shape, wavy chips Shapes, pillow shapes

FEATURE OF THE INDUSTRIAL FRYER FEATURE

	Feature
1	The frying equipment of the dough snacks can adopt different heating source according to customer local situation ,can be heat by electricity, coal, thermal oil or natural gas as heating energy
2	The cover and belt of frying equipment can be lifting automatic, easy cleaning.Simple operation, safe, convenient maintenance
3	Automatic fryer machine With Oil Circulation System which can keep the lifetime of the oil.Save frying processing cost.
4	Automatic fryer machine Using the upper and lower double-layer mesh belt transmission, the product is sandwiched between the double-layer mesh belt to avoid product floating. Network belt transmission adopts frequency conversion stepless speed regulation. Controllable frying time
5	Widely Usage frying equipment :can be used at french fries frying.Chicken frying, chips frying ,nuts frying, snack frying,meat frying ,fish frying etc.
